**Real Bike!**

Every bike has an aluminum "Lindy" plane with propellers that whirl like a real plane.

If you want to get the real fun out of bicycle riding, just get a "Lindy." It's got everything that makes it just the bike you want.

Speed—plenty of it—and easy. You don't have to push the "Lindy" to get going. Beauty, too—finished in the colors you like—RED, WHITE and BLUE—a bike that you'll be proud to own. And don't forget the little "Lindy" Plane that sets in front and has propellers that whirl like a real plane.

If your dealer can't show you a "Lindy" write us.

#### Plated Surfaces Cannot Rust!

All plated surfaces on Lindy Bicycles are electroplated with "Chromilite" — harder than the hardest steel. Cannot rust, resists wear and will not oxidize under extreme heat. Highly polished; its deep lasting luster gives added beauty and salability.

Again Shelby Cycle Company has set the pace in bicycle making, with this beautiful new Lindy Bicycle—the newest, the snappiest bicycle on the market, with a tremendous sales appeal never before incorporated in ANY bicycle. Sales of the new Lindy models have already started off like a rocket!

Here's a new bicycle that every boy and girl will yearn to own. Sales for you are merely waiting upon display of this new bicycle in your store.

Just one look at this bicycle, in its beautiful national colors,—red, white and blue,—with its aeroplane emblem equipped with whirling propeller—its trim and racy lines—will convince you that the Lindy will be the best seller you ever had!
